

Nation Code

Docker

We're gonna have a *whale* of a time!

{codenation}[®]

docker

Why Docker?

“It works on my machine” –
developers everywhere

The background features several large, light gray decorative elements: a thick curved line on the left, a vertical bar in the center-right, and another thick curved line on the far right.

Some keywords...

container

.dockerignore

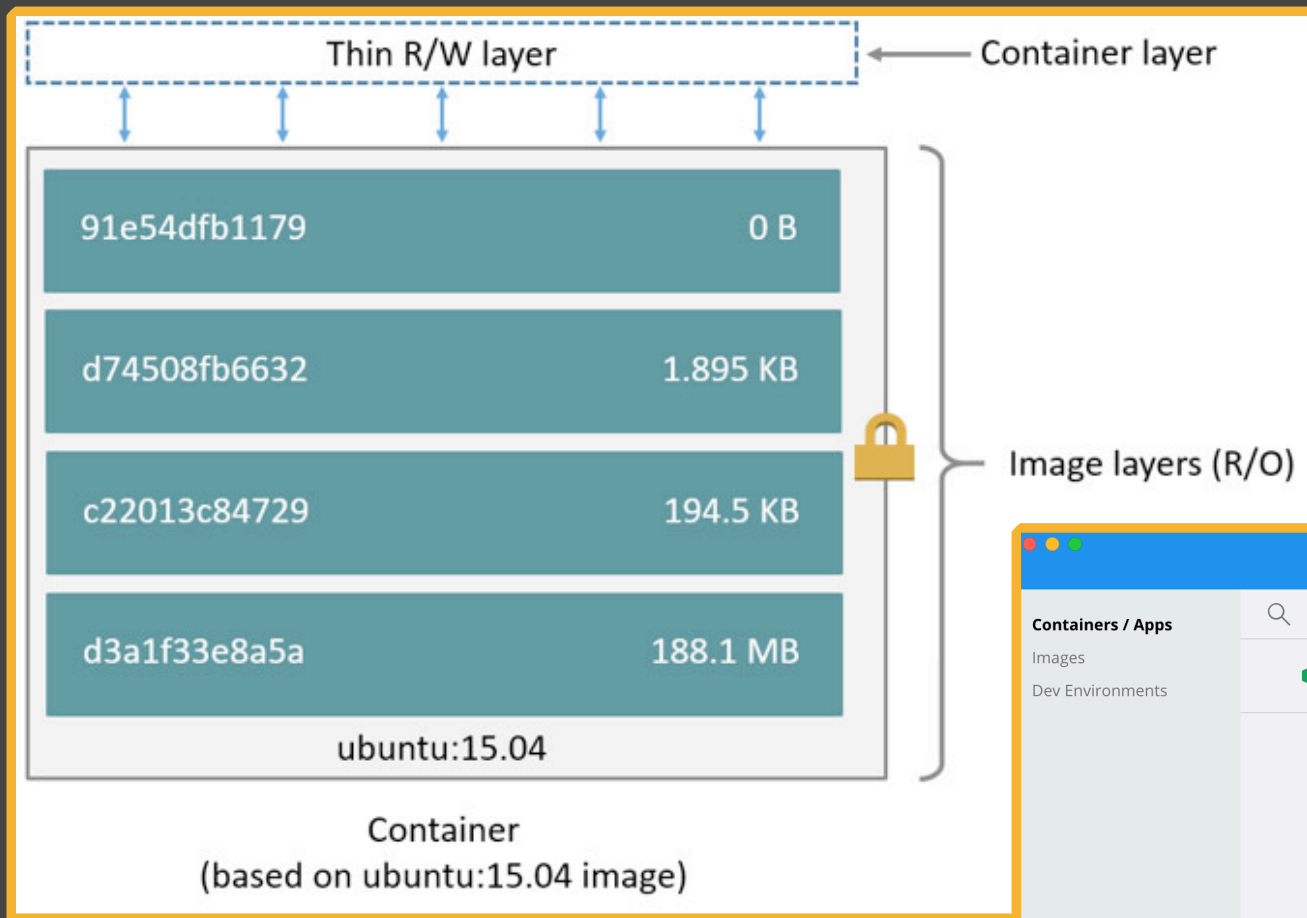

image

Dockerfile

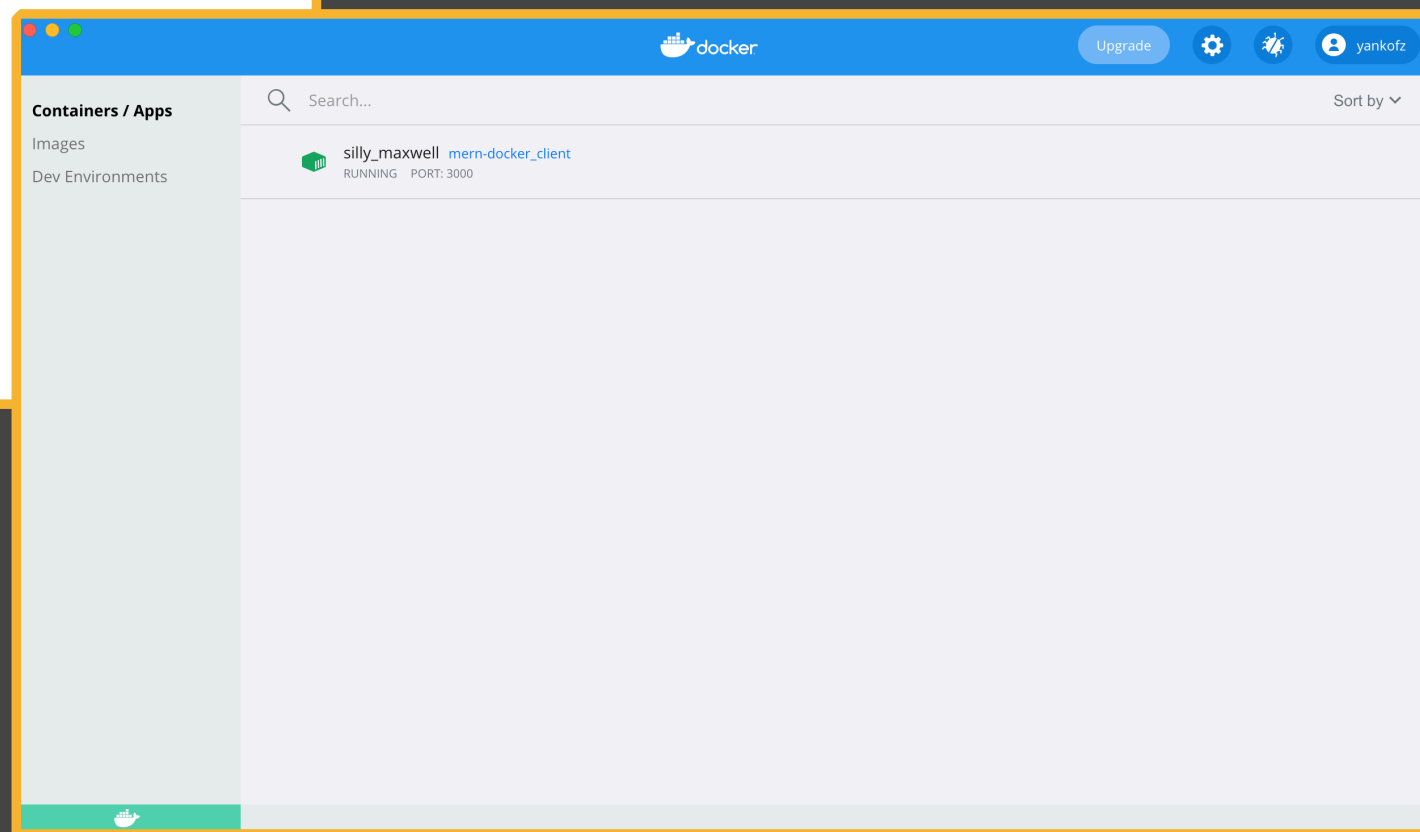

volume

containerised application

Docker-compose

left: **a container showing image layers**
bottom: **docker desktop**
