

# the Master Course

**React – what's missing?**

{CODENATION}

# Learning Objectives

**Try and identify what is missing from the code snippets**  
**This is designed to help you identify core react concepts and syntax**

# CHALLENGES

## js Complete

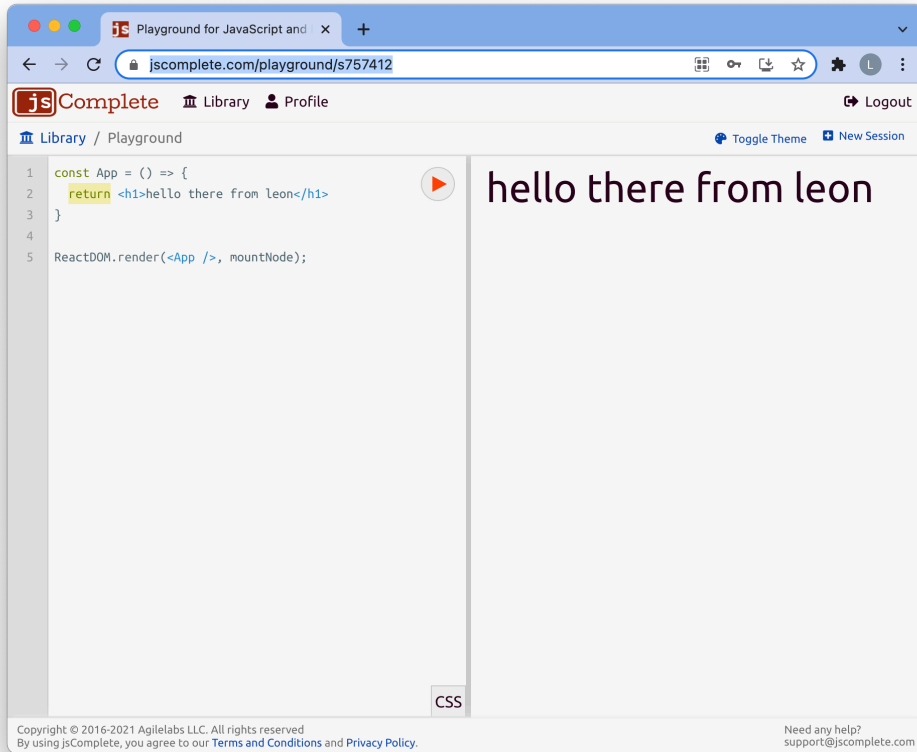

You will be given links to jsComplete  
You don't need to sign up, but its a pretty nice playground  
for react and javascript...sometimes you may just want to  
experiment, and it may be unnecessary for CRA

# CHALLENGES

## js Complete

Each volume will present a challenge that's harder and harder for you work through

# JS COMPLETE

Each volume will present a challenge that's harder and harder for you work through. With it being in the browser there won't be external components, just make a note of line 5 in the example (seen something similar in index.js?)

# Volume 1

} [Question 1.1](#)

} [Question 1.2](#)

} [Question 1.3](#)

} [Question 1.4](#)

} [Question 1.5](#)

} [Question 1.6](#)

# Volume 2

- } [Question 2.1](#)
- } [Question 2.2](#)
- } [Question 2.3](#)
- } [Question 2.4](#)
- } [Question 2.5](#)
- } [Question 2.6](#)
